

HUBWORLD AIDALON

Quick Start Guide

The Grid

Secretly build up your grid by staging cards facedown into the **grid slots** of your 3x3 play area. Each **path (column)** of your grid leads to one of your districts.

Score Area
Agents you secure go here.

Scrap
Your facedown discard pile for publicly discarded ("scraped") cards.

Archives
District
Your facedown discard pile for secretly discarded ("archived") cards.

Council
District
Your hand.

Network
District
Your deck.

Token Pool
Your action (➡), shard (♠), & heat (🔥) tokens.

Symbols

♠ **Shard**
➡ **Action**

🔥 **Heat**
⚡ **Reaction**

🛡️ **Barrier**
👤 **Confront**

♻️ **Scrap Cost**
🔍 **Discover**

Card Types

Obstacle

Defenses and traps.

Sources, obstacles, and agents can be staged in your grid. To help you remember this, their art windows are below their ability boxes, unlike moments and seekers.

Agent

Powerful but vulnerable.

Moment

Bursty one-time effects.

Single use cards that **cannot be staged** in your grid. Scrapped after being played.

Seeker

Characters who guide gameplay.

Placed in your seeker area during setup.

Setup

Each player does the following:

- Place your seeker card in your seeker area.
 - From the neutral bank, move 3 action tokens (➡) and 5 shard tokens (♠) to your token pool.
 - Decide who takes the first player token. Whoever has this token is known as "the first player."
 - Shuffle your deck and place it in your Network area. This is your Network.
 - Draw 5 cards into your hand. This is your Council.
 - You may mulligan by setting aside (facedown) cards you don't want from your Council, drawing back up to 5, and shuffling the set-aside cards into your Network.
- Then proceed to the main phase (see the next page).

Winning and Losing

You win if you secure 3 enemy agents in your score area (each from a different player in games with 3+ players) or if your rival tries to draw from their Network while it is empty during the refresh phase.

Card States

Unforaged

Forged

Unexhausted

Exhausted

Terminology on Cards

Adjacent: If the edges of two cards are touching (vertically or horizontally), those cards are adjacent. Cards in positions diagonal to one another are not adjacent.

Cipher: To scrap a card or secure an agent with a cipher, you must fulfill that cipher's requirement. Ciphers are active in all game zones, including Archives.

District: Each player has 3 districts: Council (hand), Network (deck), and Archives (face-down discard).

Engaging: Confronting and discovering are the two types of engagement. When you confront or discover a card, you become the engaging player.

Path: The vertical column of grid slots leading to each of the three districts.

Rival: The other player (or the player to your left in games with 3+ players).

Row: A horizontal row of grid slots; back (closest to you), middle, and front (farthest from you).

Shift: To shift a card, move it from its current grid slot to an adjacent (non-diagonal) grid slot. If there is already a card there, swap the two.

Unexhaust: The process of turning a card from an exhausted state to an unexhausted state.

Cards are staged in your grid unforaged (upright). Later, you may be able to exhaust the card by turning it sideways, showing it has been used for the round (see the next page).

Round Structure

1. Main Phase

Starting with the first player and going clockwise, take turns performing 1 action from the list below (spend ➡ in your pool to do so). Repeat until all players have no ➡ remaining.

- ➡ : Gain 1 from the bank into your pool.
- ➡ : Draw 1 card from your Network into your Council.
- ➡ : Stage an agent, obstacle, or source from your Council into a slot of your grid unforged and unexhausted (do not pay its shard cost at this time). If there is already a card in that grid slot, archive it if it's unforged or scrap it if it's forged.
- ➡ : Shift a card in your grid to an adjacent (non-diagonal) grid slot. If there is already a card there, swap the two.
- ➡ : Play a moment with an ➡ ability (pay its shard cost).
- ➡ : Use an ➡ ability on one of your forged cards.
- ➡ : Delve. (See Delving below. Players cannot delve as their first ➡ of the game.)

2. Refresh Phase

Once all players have spent all of their ➡, each player simultaneously does the following:

- Reset to ➡ ➡ ➡ in your pool.
- Gain 1 from the bank into your pool (your seeker's shard limit), remove shards from your pool until you match the limit.
- Draw 1 card (if you can't because your Network is empty, you lose). If you have more than 5 cards in your Council (your seeker's council limit), archive cards from your Council until you match the limit.
- Unexhaust each of your exhausted cards. (Don't forget your seeker!)
- Pass the first player token to the player on your left. They are now 'the first player.'
- The round ends. Start a new one.

Delving

You cannot delve as your first ➡ of the game (for each player). Delving is the main way you'll interact with your opponents' cards and secure their agents. When you delve, choose a path (column) in an enemy's grid that leads to one of their districts—Network, Council, or Archives. Then, encounter each grid slot along that path (one at a time, starting with the front row) by following these steps below:

Encountering a Grid Slot

1. Approach

Certain abilities may trigger (e.g. "As you approach a grid slot...").

2. Instant Window

(See Instants above.) The defender of the delve goes first in this instant window.

Breaching a District

1. Approach

Certain abilities may trigger (e.g. "As you approach a district...").

2. Instant Window

(See Instants above.) The defender of the delve goes first in this instant window.

➤ Instants

At multiple points of the main phase, opportunities called 'instant windows' become available where players can perform instants. As a rule of thumb, if an action or ability is not resolving, an instant window is open. The four types of instants are:

- ➡ : Forge an unforged card in your grid by flipping it faceup and paying its shard cost.
- ➡ : Collect with your seeker or with a forged agent/source in your grid by exhausting it, then gaining a shard (4) or drawing a card (3) for its corresponding collection icon.
- ➡ : Play a moment with an ➡ (instant) ability by paying its shard cost.
- ➡ : Use an ➡ ability on your seeker or on a forged card in your grid.

If multiple players want to perform instants at the same time, proceed as follows:

- If the instant window is during a delve, start with the defending player (the player whom the delve is targeting), otherwise start with the first player.
- That player performs as many instants as they'd like (including none). When they're done, the next player in clockwise order gets a turn to perform their instants. This process continues indefinitely, with each player given a turn to perform as many instants as they'd like again and again. However, once all players consecutively pass their turn to perform instants, the instant window closes.

↻ Reactions

Some cards have ➡ (reaction) abilities that you can choose to use when the ability tells you. Just like instants, you can do as many ➡ as you'd like. And if multiple players wish to use ➡ at the same time, start with the first player outside of a delve or the defending player during a delve, then go clockwise.

🗡 Confronting Cards

During a delve, you might confront forged cards in the defending player's grid. When you do, first resolve the card's ➡ (confront) abilities, then either pay its ➡ (barrier) or end the delve. Finally, you may either pay the card's ➡ (scrap cost) to secure/scrap it or leave it be. The steps for confronting are:

- Defender may trigger the card's ➡ abilities (if any).
- If the card has a ➡, you may pay 4 equal to the value. If you don't, immediately end the delve.
- You may pay 4 equal to the card's ➡.
- If you do, secure the card if it's an agent, or scrap it if it's an obstacle or source. (If the card has a cipher, you must also fulfill that.)
- If you don't, leave the card alone (return it to its previous place & state).

🔍 Discovering Cards

During a delve, you might discover cards either unforged in the defending player's grid or from inside one of their districts. When you do, first resolve the card's ➡ (discover) abilities, then either pay the card's ➡ to secure/scrap it or return it to its previous place. In games with 3+ players, only you and the defending player look at the discovered card. The steps for discovering are:

- Defender may trigger the card's ➡ abilities (if any).
- If the card has a ➡, you may pay 4 equal to the value.
- If you do, secure the card if it's an agent, or scrap it if it's an obstacle or source. (If the card has a cipher, you must also fulfill that.)
- If you don't, leave the card alone (return it to its previous place & state).

NOTE ON ARCHIVES: When discovering a card in an Archives, you don't need to pay its ➡ to secure it or scrap it, but you do need to fulfill its cipher (if any).

Securing Agents

Agents cannot go to the Scrap. If you confront or discover an agent and pay its ➡, secure that agent to your score area (instead of scrapping it). If the agent is in an Archives, see the above section's note. Additionally, if one of your agents would be scrapped for any reason other than having its ➡ paid, add it to your rival's score area (player to your left).

Print & Play Deck

This print and play version of the demo deck for Hubworld: Aidalon is made with updated graphics closer to the final product. The following icons are different from the preview decks:

	New Icon	Old Icon
Presence		
Barrier		
Encounter		

Ciphers

Cipher is no longer a keyword. Instead, if a cipher appears on a card, it will be in this box at the bottom of the card:

Engaging player exhausts a card in their Archives path.

Round Structure

Main Phase - Available Actions

- : Gain 1 .
- : Draw a card.
- : Stage an Agent, Obstacle, or Source.
- : Play a Moment with an ➤ ability.
- : Use an ➤ ability on your forged card.
- : Shift a card in your grid.
- : Delve. (Not as your first game action.)

Refresh Phase

1. Reset to ➤➤➤ in your pool.
2. Gain 1 . Discard down to 10 .
3. Draw 1 card. Discard down to 5 cards (discarded cards are archived).
4. Unexhaust your cards. (Don't forget your Seeker!)
5. Pass the first player token.

Extra Reminders

Ability Icons

- **Action:** Spends your ➤ token.
- ⚡ **Reaction:** Resolve when the ability tells you (in bold).
- ⚡ **Instant:** Resolve during an ⚡ window.
- 👁 **Discover:** Resolve when a player discovers this card.
- 👁 **Confront:** Resolve when a player confronts this card.

Instant (⚡) Windows

During an instant window, you can:

- Forge cards (by paying their cost).
- Collect with cards.
- Play a moment with an ⚡ ability.
- Use an ⚡ ability on your forged card.
